5 Fantastic Jump

RIF® production line has a wide range of products. We are ready to offer a ride set for a ground of any size from a small space at a shopping centre to a city park. That will be interesting!

The advantage of buying a ride unit at one manufacturer is that you receive a set that is installed in a short time at an indicated place and there is no need to move the walls or cut out the trees.

The main advantage of working with a demanded and proved ride manufacturer is that you can be sure that the equipment bought is of a high quality and has a long-term service.

The main advantage of RIF® company group is that we offer a set of basic rides for a shopping centre, for a beach or a park zone with a guaranteed high quality and perfect service.

Nowadays this is the most popular ride for shopping centers and parks. Such inflatable units are very popular all over the world with people who are in favour of active leisure time. Moreover it's very funny, and jumps on a trampoline are very healthy. Inflatable trampolines are interesting for all ages. Little children like playing in a pool with soft cubes, young people can spend hours practicing difficult tricks to do them after in the mountains or at a skate-park. And there is also space in Trampolino Park for adults who come along with kids to spend time together.

No matter the size of your set we'll try to design and distinguish your project in the way you could have a competitive advantage.

The main characteristic of Trampolino Park manufactured by RIF® is that you receive a bouncy castle assembled at our factory, produced from high quality materials and painted with powdered colours. It takes several days to put it up thus you don't spend a lot of money for its installation. You can even remove it to another place or partially modify it in case of some difficulties with a ground.

Moreover we can integrate a trampoline with other rides: an extreme world or a rope park, a climbing set or a playing room.

The construction characteristics allow using our inflatable set Trampolino Park even at a rollerdrome or at a bicycle car and carting tracks.

When you choose a manufacturer bear in mind his professionalism. We've been manufacturing different rides for 20 years and we have a vast experience and a team of specialists that can make any idea come true.

Trampolino Park trampoline produced by RIF® is always an exclusive project. Client's preferences and the efficient use of a ground are our priorities.

Trampolines 50 - 150 m²

These are the smallest trampolines. It's impossible to do different elements and pools in this trampoline group. However we can collocate here a pool with soft balls and from 2 to 12 trampolines. The main priority is the visitors' safety.

tp 094

tp 130

tp 115

tp 141

Trampolines 150 - 300 m²

This group is of middle size trampolines. Here we can divide zones, collocate two pools with soft balls if necessary and a good amount of trampolines from 20 to 22. Unfortunately there is always a desire to increment the amount of trampolines due to the width of a trampoline but it's not secure and not always comfortable for visitors.

tp 222

tp 182

tp 209

tp 157

Trampolines over 300 m²

This is the most interesting size for the visitors of your ride. On designing this inflatable set you can switch on your imagination or just trust our professional team of specialists. We guarantee a maximum number of elements taking into consideration your preferences subject to security norms.

tp 375

tp 700

tp 452

tp 503

A trampoline set consists of different size trampolines and a huge pool with soft balls. We can install climbing walls, basketball hoops, special places for binding supplementary elements, trampolines and starting platforms as additional elements.

The set may consist of 2 or 3 trampolines and a pool with balls or it may have 50 trampolines and several pools with balls. It's possible to divide a set practically or relatively into different zones for different ages. Everything depends on you, the size of your ground and the budget.

It's important to bear in mind that the larger the project more interesting it is for the visitors. A trampoline can be installed at any open-air ground or in the building with the ceiling height from 4,5 m.

You can install the project in the building with a less ceiling height but that will limit the age of your visitors. Columns and the other space characteristics are not the obstacles for trampoline set manufacture. It just needs more attention while designing and complicates the trampoline construction.

There are different ways of earning money with these trampolines they are fitness and aerobics, teambuilding or discos, birthdays and other events. Moreover the sale or rent of additional accessories can give additional income.

Climbing sets are also very popular amusement rides all over the world. Such a set may consist of dozens of walls to climb, a huge slide, enormous columns, an inflatable mat to jump and a huge column for adventure-seekers. All these extreme rides are completely secure because each element is equipped with an automatic fall arrest system. All the obstacles are of different levels of difficulty but on the whole the set is interesting for visitors of all ages, parents with kids will have a lovely and interesting time here.

It's obligatory before climbing to do warm-up exercises and to have the instructions read.

Imagine yourself hanging at a 10 meter height. Is it high?

And imagine that you stand on a small platform at a 6 meter height. Is it difficult? Or that you hang just with your arms practically at a shear wall without any fall arrest system? Impossible? Try it, with us everything is possible.

This is fascinating, funny and absolutely safe.

As all obstacles are equipped with an automatic fall arrest system a huge complex needs a minimum number of staff.

Mindja park

For more information,
please, visit our site

This type of amusement is getting popular all over the world. We also offer our clients this type of equipment.

This is a combination of all known and popular rides such as a trampoline, elements of climbing set, elements of rope park or a playing room.

This ride is a universal one you can install it at any ground. Its size and form are not the obstacles for making a good complex. There is no need for a space with high ceilings but if there is an opportunity it's possible to make an amusement with two levels or just use some high elements.

Nindja park ride can be successfully integrated at the same space with a playing room or a trampoline park. It'll be more attractive and it'll increase the income.

| Bouncy castle complexes | | | | | |
|-------------------------|------|-----------|----------|-----------|-------------------------|
| Model | Code | Length, m | Width, m | Height, m | Height of a platform, m |
| "Greece" | 923 | 25,0 | 7,0 | 8,0 | 5,0 |
| "Robocar" | 131 | 16,0 | 11,0 | 5,2 | 3,0 |
| "Tropics" | 924 | 17,9 | 6,3 | 5,6 | 3,9 |
| "Magic castle" | 925 | 11,9 | 8,0 | 6,5 | 3,1 |

"Greece"

Trampoline sets are getting more popular and we more often see them at the parks. The models are getting more different, the colours are more vivid, and sizes are bigger.

"Robocar"

And it's a real inflatable complex where you can find different animal figures where one is distinguished by its size and a moving element, and assault course elements, and an inflatable slide with an open and a closed racing slide. A bouncy castle complex is a mini park that anyone can't walk past.

"Tropics"

"Magic castle"

ATTENTION! These complexes are delivered with two ventilators. Bouncy castel is not a leak-proof product.

"Minions - Banana 2"

"Cars"

"SpongeBob"

Nowadays grandmothers and grandfathers know that Cars is a favourite cartoon of many kids. And a new bouncy castle complex proves it. The traffic light is always green here on the tracks for young racers. Lightning McQueen controls how kids descent from a 4 meter slide. And Mater is always ready to expose its mechanical platform to evacuate unlucky racer. Start with Cars.

NEW PRODUCT

"Minions - Banana"

Minions - Banana is based on a popular cartoon. It has two slides from which you can descend or get into the jaw of an enormous monster. This is a very eye-catching ride that always has long queues to it.

"Cars"

SpongeBob is based on a popular cartoon and is made according to the best production traditions.

Bouncy castle complexes

| Model | Code | Length, m | Width, m | Height, m | Height of a platform, m |
|----------------------|------|-----------|----------|-----------|-------------------------|
| "SpongeBob" | 920 | 10,6 | 10,2 | 9,0 | 3,8 |
| "Minions - Banana" | 921 | 11,0 | 10,6 | 9,0 | 5,0 |
| "Minions - Banana 2" | 926 | 15,0 | 15,0 | 9,0 | 5,0 |
| "Cars" | 161 | 13,3 | 10,2 | 7,2 | 4,2 |

ATTENTION! These complexes are delivered with two ventilators. Bouncy castel is not a leak-proof product.

Dinosaur island 2 and Dinosaur island are two bouncy castles. They have practically the same elements such as a big inflatable slide, volcano, an enormous moving dinosaur head and several small figures of other dinosaurs. They have vivid and interesting designs. The only difference is the size and form.

"Dinosaur island 2"

"Dinosaur island"

ATTENTION! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

Mysteries and enigmas of prehistoric times are interesting both for children and adults. A new bouncy castle complex Dinopark offers a fascinating journey to prehistoric jungles. Young palaeontologists will have to pass through a plateau with enormous one meter eggs, sail the river from a three meter slide and face with a monstrous Triceratops and explore its jaw.

Bouncy castle complexes

| Model | Code | Length,m | Width, m | Height, m | Height of a platform, m |
|---------------------|------|----------|----------|-----------|-------------------------|
| "Dinosaur island" | 130 | 20,0 | 6,6 | 6,0 | 3,6 |
| "Dinosaur island 2" | 132 | 14,0 | 13,0 | 6,2 | 4,0 |
| "Dinopark" | 160 | 10,6+1,0 | 9,0 | 6,5 | 3,0 |

"Dinopark"

There is a huge inflatable pirate ship, a vivid island with a famous pirate shelter and a trunk with treasures on the island.

A bounce castle unit Treasure Island is the biggest in the RIF's production line. It is difficult to find a place for this complex even in a big park. But if you've managed it you'll succeed for sure.

"Treasure Island 2"

"Treasure Island"

And the third element of a bounce castle complex is a serious sea habitant shark which moving jaw attracts a lot of children of different ages.

Attention! The delivery set of this bouncy castle includes 5 ventilators! Bouncy castle is not a leak-proof product.

"Treasure Island 3"

"Treasure Island"

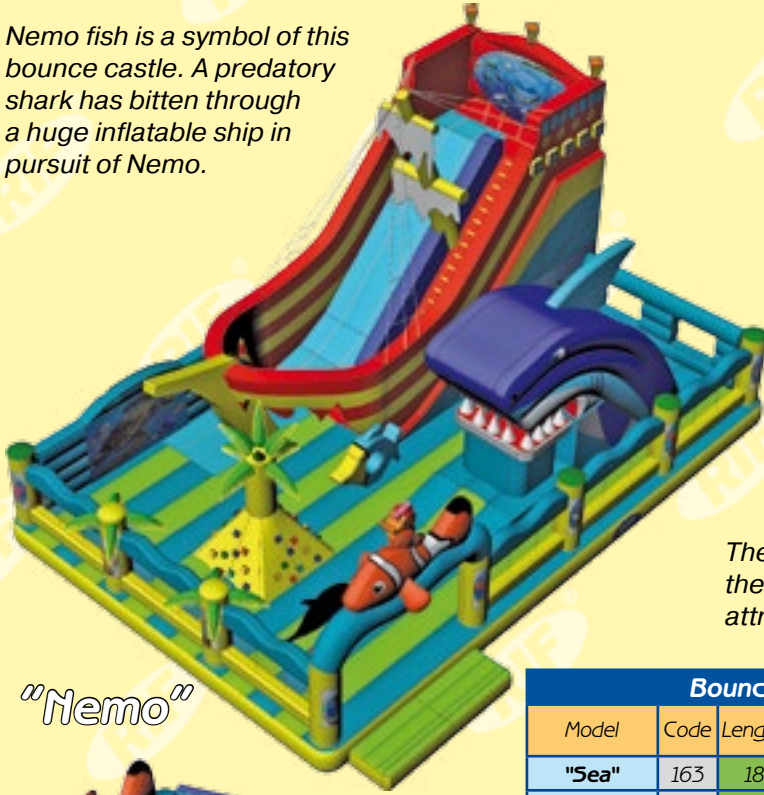

"Treasure Island 2"

| Bouncy castle complexes | | | | | |
|-------------------------|------|-----------|----------|-----------|-------------------------|

| "Treasure Island 3" | 926 | 18,0 | 6,5 | 5,8 | 2,9 |

Attention! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

Nemo fish is a symbol of this bounce castle. A predatory shark has bitten through a huge inflatable ship in pursuit of Nemo.

"Nemo"

"Sea"

"Nemo"

The cartoon characters look like rescue service cars. Kids like imagining themselves as their officers. The multitude of different inflatable cars attracts a lot of children.

| Bouncy castle complexes | | | | | |
|-------------------------|------|-----------|----------|-----------|-------------------------|
| Model | Code | Length, m | Width, m | Height, m | Height of a platform, m |
| "Sea" | 163 | 18,0 | 8,5 | 7,7 | 3,8 |
| "Nemo" | 164 | 14,5 | 10,5 | 8,2 | 5,0 |
| "Birds" | 167 | 11,7 | 11,8 | 8,8 | 5,0 |

Serious birds from Angry Birds are the most know characters today. Both adults and children like them. Such a bouncy castle complex will draw a lot of attention.

"Birds"

Sea is the most unusual inflatable set. Apart from the traditional and favourite elements such as an inflatable slide and a moving mechanical head here we have a special inflatable mat that guarantees a secure landing from a 4 meter height.

ATTENTION! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

"Sea"

These inflatable sets can be of different size and form but all of them are full of a maximum number of inflatable characters and are decorated with vivid pictures.

"Madagascar"

"Madagascar"

"Madagascar"

Our company proper technology of gluing and the best quality of PVC cloth on the market are the guarantee of a long term usage of your inflatable set.

"Madagascar 2"

"Madagascar 2"

"Madagascar"

| "Madagascar 2" | 116 | 17,0 | 7,4 | 6,7 | 4,0 |

"Madagascar 2"

ATTENTION! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

Today we offer not just a simple inflatable set but a whole inflatable city by a combination of various inflatable trampolines that you'll choose. And this is a real complex because you can find different inflatable figures of animals and characters where one is distinguished by its size and a moving element. There are also assault course elements and an inflatable slide with an open or a closed racing slide. An inflatable set is a kind of a mini park that you can't walk past.

"Caribbean"

"Jolly Roger"

A bouncy castle complex Caribbean. Imagine that a pirate ship dropped an anchor close to an unknown island where it faced with an enormous fish Ruffe. Your young sailors fall aboard an unbelievable monster descending from inflatable slides of Jolly Roger. The construction characteristic is that after if there is a need you can use each element separately.

"Caribbean"

| Bouncy castle complexes | | | | | |
|-------------------------|------|-----------|----------|-----------|-------------------------|
| Model | Code | Length, m | Width, m | Height, m | Height of a platform, m |
| "Jolly Roger" | 110 | 12,0 | 8,0 | 6,0 | 2,7 |
| "the Flying Dutchman" | 118 | 24,0 | 9,2 | 8,6 | 4,0 |
| "Caribbean" | 113 | 14,0 | 14,0 | 6,0 | 2,7 |

Who didn't dream with being a pirate in the childhood and go to look for Captain Flint's treasure. An enormous pirate ship will be interesting for everybody because not just you dreamed with being a pirate.

"the Flying Dutchman"

ATTENTION! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

"Shrek"

An inflatable set Jungles. These are real inflatable jungles where one can jump, climb, run, tumble, pass through a labyrinth, descend from the hippo's back or even try to ride a zebra. And with such a size of an inflatable set even an adult will find himself a little Mowgli.

Model Shrek-M5 exceeds the size of its group mate and has a slide with height of a top launch platform of 5 meters.

"Jungle"

| Bouncy castle complexes | | | | | |

| "Shrek M5" | 119 | 11,6 | 10,9 | 8,5 | 5,0! |
| "Jungle" | 111 | 13,5 | 11,0 | 3,2 | |
| "Junglemania" | 922 | 8,0 | 8,0 | 3,7 | 2,5 |

This is an enormous inflatable fortress with favourite characters inside. Here you can jump with Three Little Pigs, try Gingerbread man's durability, ride Donkey, measure strength with Shrek and get into the Dragon's jaw. This inflatable set as the others has an enormous inflatable head with a moving element, a three meter inflatable slide and some decorations made by applique work.

"Shrek M5"

"Jungle"

"Junglemania"

NEW PRODUCT

ATTENTION! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

"Multi-Safari" – Duck

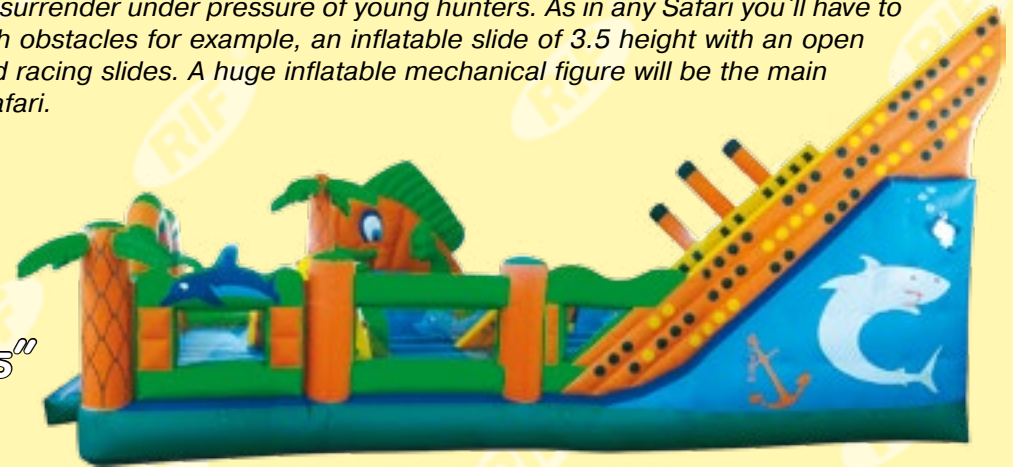

At your choice it can be a Duck, a Crocodile or a Monster. If you have your own idea we're happy to collaborate.

"Multi-Safari" - Crocodile

An inflatable set Multi Safari. If you haven't gone to Safari start with our incredible inflatable set. And don't worry about your small visitors, huge inflatable figures just seem to be dangerous but they will surrender under pressure of young hunters. As in any Safari you'll have to pass through obstacles for example, an inflatable slide of 3.5 height with an open and a closed racing slides. A huge inflatable mechanical figure will be the main symbol of Safari.

"Oasis"

An inflatable trampoline set Oasis. It's a combination of various popular trampolines in one. Its important part is a themed inflatable slide with an open and a closed racing slides with a 3.5 high top launch platform.

| Bouncy castle complexes | | | | |
|-------------------------|------|-----------|----------|-----------|
| Model | Code | Length, m | Width, m | Height, m |
| "Oasis" | 101 | 13,0 | 11,0 | 6,3 |
| "Multi-Safari" | 108 | 11,0 | 10,0 | 6,6 |

The multitude of inflatable obstacles will be interesting to your visitors. And an inflatable pyramid in the centre will allow climbing high and touching a palm-trees.

"Oasis"

ATTENTION! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

A bouncy castle complex Tropicana. An inflatable slide that in this case has racing slides an open and a closed one with a 3.5 meter high top launch platform is an important element of this set. The multitude of different inflatable obstacles will attract a lot of visitors.

A bouncy castle complex Tropicana-2. Try to pass through all the obstacles of this bouncy castle and at the end you'll feel as if you'd been to tropics.

"Tropicana 2"

| Bouncy castle complexes | | | | |
|-------------------------|------|----------|----------|-----------|
| Model | Code | Length,m | Width, m | Height, m |
| "Multi tropics" | 109 | 12,2 | 5,0 | 5,0 |
| "Safari" | 107 | 15,0 | 6,0 | 6,0 |
| "Tropicana" | 102 | 16,0 | 8,0 | 6,4 |
| "Tropicana 2" | 103 | 11,5 | 10,2 | 6,4 |

A bouncy castle Multi-tropic will be appropriate even for those visitors who don't stand confidently on their feet. Here we have a small 2 meter double racing slide. And a favourite thing with small kids is a pool with a multitude of colourful balls.

Do you think that children are too young to participate in Safari? We're ready to prove the contrary! And a bouncy castle Safari will help us. To descend in a closed racing slide of a 3.5 meter height, to pass through inflatable tunnels and fight with inflatable habitants of jungle is a good practice before going to Safari.

"Multi tropics"

"Safari"

Attention! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

Bouncy castle complexes

For more information,
please, visit our site

A bouncy castle complex Multi Duck is a good combination of an inflatable 3 meter slide and a huge inflatable figure of a Duck with a moving element that is a symbol of a set.

"Multi-Duck"

Small children will test all the figures resistance with lots of fun and will measure the set height jumping.

"Multi-Crocodile"

A bouncy castle complex Multi Crocodile. Its special characteristic is an enormous inflatable Crocodile figure with a moving jaw. Where else can you get into a crocodile's jaw and get out of it safe and sound and very happy? An important element of the bouncy castle complex is an inflatable slide that in this particular case has an open racing slide and a 3 meter top launch platform.

"Multi-Monster"

| Bouncy castle complexes | | | | |
|-------------------------|------|-----------|----------|-----------|
| Model | Code | Length, m | Width, m | Height, m |
| "Multi-Duck" | 104 | 11,0 | 8,0 | 5,6 |
| "Multi-Monster" | 105 | 11,0 | 8,0 | 5,6 |
| "Multi-Crocodile" | 106 | 11,0 | 8,0 | 5,6 |

| "Shark" | 128 | 11,0 | 5,5 | 5,5 |
| "Birds" | 129 | 11,5 | 8,0 | 7,9 |
| "Dragon" | 120 | 12,0 | 6,0 | 5,5 |
| "Dino" | 127 | 12,0 | 6,0 | 5,5 |

Mechanical bouncy castle "Birds"

"Dragon"

The peculiarity of Dragon 'mechanical' bouncy castle is that one may enter via climber while descent from the opposite side. That allowed decreasing the overall bouncy castle size.

A mechanical bouncy castle Birds which huge and vivid head is seen from far away.

"Mechanical" bouncy castles

For more information, please, visit our site 

You are not ready to buy a bouncy castle set or maybe the size of your ground doesn't allow you to do it. So we suggest you start with 'mechanical' bounce castles. Monster, Crocodile, Duck, Fish, Whale and Ruffe are the most popular inflatable rides. The combination of a common inflatable set, an inflatable slide, a huge inflatable figure with a moving mechanical element is the 'receipt' to popularity and a huge demand for inflatable complexes produced by RIF®.

"Monster"

"Duck"

"Crocodile"

"Whale"

| "Mechanical" bouncy castles | | | | |
|-----------------------------|------|-----------|----------|-----------|
| Model | Code | Length, m | Width, m | Height, m |
| "Duck" | 121 | 8,5 | 4,7 | 4,5 |
| "Monster" | 122 | 11,0 | 6,0 | 5,0 |
| "Crocodile" | 123 | 11,0 | 6,0 | 5,0 |
| "Whale" | 124 | 11,0 | 6,0 | 5,0 |
| "Fish" | 125 | 11,0 | 6,0 | 5,0 |
| "Ruffe" | 126 | 10,8 | 7,4 | 5,4 |

An inflatable platform around the Ruffe bouncy castle lets preserve the principle to enter from one side and exit from another one ensuring better controls system.

"Ruffe"

"Fish"

All this series trampolines are equipped with two ventilators. The potential of the first one is about 1.5 Kw/h and is used to fill in the whole body of the attraction. The potential of the second one is about 1.1Kw/h and is used to lift a moving jaw. This one is equipped with a timer and it periodically switches on and off and the frequency of its work you can chose yourself.

"Boogeyman"

All traditions are still alive nowadays and modern children also know who Boogeyman is. They can get into her hut without being scared and in case of danger leave it descending from a 7 meter slide cheating on dragons that guarding the entrance to her hut.

ATTENTION! These bouncy castles are delivered with the ventilators. Bounce castle is not a leak-proof product.

| Inflatable slide | | | | | |
|------------------|------|-----------|----------|-----------|-------------------------|
| Model | Code | Length, m | Width, m | Height, m | Height of a platform, m |
| "Boogeyman" | 134 | 17,8 | 10,0 | 14,1 | 7,1 |
| «Birds-mini» | 137 | 7,5 | 7,0 | 5,2 | 2,7 |
| "Formula-1" M7 | 131 | 19,0 | 10,0 | 10,0 | 7,0 |
| "Formula-1" M6 | 132 | 16,0 | 8,0 | 9,0 | 6,0 |
| "Butterfly" | 185 | 7,5 | 7,0 | 5,2 | 2,7 |

An interesting design and a huge size of a Formula race red car will interest young racers because unlike a real one young racers of any age can easily rein in an inflatable car.

"Formula-1"

"Butterfly"

«Birds-mini»

Small inflatable slides Birds-Mini and Butterfly are the examples of a vivid design that have two racing slides and a lot of space to play catch-up. This is an ideal variant for the littlest children.

An inflatable Trampoline-Slide is an old series of our trampolines that we don't have to represent. We did our best in order that our inflatable Trampoline-Slide surprises you by its size and by its design and you'll be happy with its traditional quality.

Super-Mountain M7 is the biggest inflatable trampoline – slide manufactured by RIF®. The height of the top launch platform is about 7 meters. If you think it's not enough try it yourself. If you want to attract no so crazy adventure-seekers an inflatable trampoline-slide Super-Mountain M6 is for you.

An interesting design, a huge ride size and a 6-meter height of the top launch platform is a good combination of all necessary components in one trampoline. Practically all images are made by applique work, so they'll serve for a long time and not just first two months of exploitation. Vivid images of characters from favourite cartoons will draw children's and your attention.

| Inflatable slide | | | | | |
|---------------------|------|----------|----------|-----------|-------------------------|
| Model | Code | Length,m | Width, m | Height, m | Height of a platform, m |
| Super-Mountain "M7" | 135 | 19,0 | 10,0 | 10,0 | 7,0 !!! |
| Super-Mountain "M6" | 136 | 16,0 | 8,0 | 9,0 | 6,0 |
| "Ice Age" M6 | 149 | 17,5 | 9,0 | 9,9 | 6,0 |

ATTENTION! These bouncy castles are delivered with two ventilators. Bounce castle is not a leak-proof product.

The main characteristic of inflatable trampoline-slides is the height of the top launch platform in other words it's a height that you have to climb on before to start an unforgettable journey down.

"Лимпопо"

M5

"Limpopo"

M7

M7

| Inflatable slide | | | | | |
|------------------|------|-----------|----------|-----------|-------------------------|
| Model | Code | Length, m | Width, m | Height, m | Height of a platform, m |
| "Transformer" M7 | 154 | 17,5 | 9,8 | 13 | 7,0 |
| "Transformer" M6 | 155 | 15,8 | 9,8 | 12 | 6,0 |
| "Limpopo" M5 | 151 | 11,0 | 7,0 | 8,0 | 5,0 |
| "Limpopo" M7 | 156 | 18,3 | 9,5 | 11,0 | 7,0 |

Limpopo is a huge inflatable trampoline-slide that looks like a huge sand drift in a desert decorated with magic cactuses and palm-trees. And cheerful habitants of an African savanna will make you and your visitors happy. All the images of magic characters are made by appliqué work that will be with during the whole exploitation period.

M5

This is an enormous alien will be seen from any place at a beach or at a park. Despite its severe appearance he is very friendly!

M6

"Transformers"

All these slides are equipped with a ventilator. Its power is 1.5 kWh.

Trampoline-Slide M5 is an inflatable slide with a 5-meter height of the top launch platform. Such an interesting inflatable castle rises above the surroundings and attracts a lot of attention. All decorations are made by applique work that guarantees you a long term period of usage and a good aspect without any changes.

Inflatable slide

| Model | Code | Length,m | Width, m | Height, m | Height of a platform, m |
|----------------|------|----------|----------|-----------|-------------------------|
| "M5" | 138 | 10,6 | 5,6 | 8,0 | 5,0 !!! |
| "Lukomorje" M5 | 139 | 11,6 | 7,0 | 8,0 | 5,0 !!! |

Trampoline-Slide M5 Lukomorje, in Russian folklore is for bay, is an interesting model with a 5-meter height of the top launch platform.

The design is based on Russian traditional tales. Some of the images are printed and some of them are made by applique work that guarantees a long term quality of a design. This slide characteristic is a lengthened entrance that is used as a regular bouncy castle.

ATTENTION! These bouncy castles are delivered with one ventilator. Bounce castle is not a leak-proof product.

"SpongeBob" M7

"SpongeBob" M7

SpongeBob is another kid's favourite city model with a 5-meter high top launch platform and a vivid design.

"SpongeBob" M5

| Inflatable slide | | | | | |
|------------------|------|-----------|----------|-----------|-------------------------|
| Model | Code | Length, m | Width, m | Height, m | Height of a platform, m |

It's possible to organize a rent of electric boats practically at any crowded place. The base for this ride is a pool or an existed body of water.

"Assembled pool"

Assembled bases of different forms and sizes and a leak-proof insert.

Advantages: you can organize a rent of electric boats at any ground, assemble it fast without any difficulties, and there is an opportunity to take into consideration special characteristics of a ground.

Disadvantages: a relatively high cost, difficult to modify on changing a rent ground.

"An artificial body of water"

It is usually an old fountain or a pool in the park that is out of service.

Advantages: it is usually in a good place and has water supply and a drainage system.

Disadvantages: it may cost you a lot of money to restore leak resistance, there are might be tubes inside that will be prohibited to dismantle, it's difficult to secure control over boats on a vast territory.

"Liner"

A leak-proof insert for deepening in the ground is made according to your sketch.

Advantages: a relatively low price, there is no necessity in a dock.

Disadvantages: it's not permitted everywhere to do such a construction work, if the ground is not a property after cancelation of an agreement it will be difficult to remove it to another place or to sell.

"A natural body of water"

Advantages: the lowest price

Disadvantages: it is necessary to install a barrier on the territory, to clean a water bed and a shore, to have life jackets, to prohibit the usage at night time.

A fixed construction at a good place.

Advantages: the maximum account of the ground characteristics, the most efficient aspect.

Disadvantages: the highest cost, it's necessary to have a portable water treatment and water cleanup systems.

"Fixed pool"

An assembled pool is a set of all necessary elements to organize a rent at any crowded place. Everything is in the set! Very easy and fast to install! It doesn't need a lot space for storage and transportation.

An assembled polygon pool

An assembled rectangular pool

An assembled metal pool could be rectangular, polygonal or oval. Its sizes and forms depend on your ground dimension.

Attention!
A polygonal pool is the most cost-effective because it has the lowest cost for a square meter.

An assembled oval pool

An assembled polygon pool in the form of number eight

A polygonal form allows distributing the load equally as a consequence waste of materials is the lowest.

An assembled fiber-glass pool

An assembled fiber-glass pool has lots of advantages: a functional circle form, low weight, small packaging sizes, a 100% resistance to rough conditions. The only disadvantage is the only size of 11 meters in diameter.

A charger dock stall

It's used to help get in and out of an electric boat to a dock and for docking. It can be equipped with a plug to facilitate the charging process on the water surface.

A dock for Universal pool

A dock for a rectangular pool

A dock for a polygon pool

If you want to exploit a pool with electric boats you'll need a dock the type and size of which depend on your desire and pool model.

A pool complex solution is a colourful and maximum functional model. You choose the design, we provide full equipment. It's installed without any difficulties at a beforehand prepared ground and to make it work you just need to fill a pool with water.

The main advantage of a complex ride buying at one manufacturer is that you get interesting and integrated rides that have an eye-catching aspect and efficient use of the ground.

Decoration "Sea World"

To decorate your pool and draw more attention of the visitors we offer you Sea World decorations. These are colourful images about sea that are fixed around the pool.

To decorate your pool for maximum we can produce an additional decoration, a kind of a banner that is fixed above the pool and is equipped with an illumination to exploit a pool at night time.

Park attractions "G-shock"

For more information, please, visit our site 

"G-shock"

A new product in the amusement industry appeared. It's a free fall on a huge inflatable mat. Such a mat guarantees a secure landing.

A free fall on a soft mat, more adrenaline only from falling from a high height.

"G-shock"

| G-shock | | | | |
|-------------------|------|-----------|----------|-----------|
| Model | Code | Length, m | Width, m | Height, m |
| "G-shock" G - 3,5 | 356 | 4,5 | 4,2 | 1,8 |
| "G-shock" G - 6 | 357 | 7,7 | 6,0 | 1,9 |

If it seems that to fall down from a 6 meter height without any fall arrest system is easy just try it!

"G-shock"

"G-shock"

This ride has a very high visitor capacity because free fall doesn't last long unfortunately.

"G-shock"

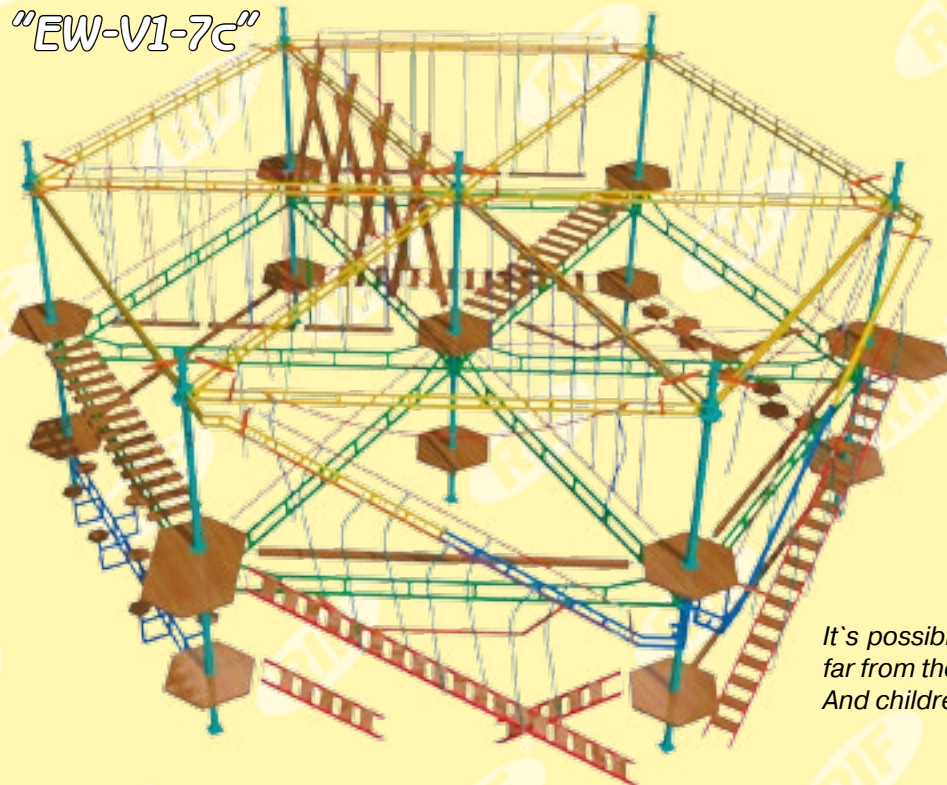

This is the most secure model of a rope park. This ride is for people who prefer an active leisure time. It's an important part of any amusement park in Europe and America. It's getting popular all over the world because firstly it's a type of active leisure time and secondly it gives a lot of strong emotions.

“EW-V1-7”

“Extreme World”

“EW-V1-7c”

| “Extreme World” | | | | | |
|-----------------|------|-----------|----------|-----------|--------|
| Model | Code | Length, m | Width, m | Height, m | Stairs |
| EW-4 | 305 | 10,5 | 6,4 | 5,5 | 1 |
| EW-5 | 306 | 13,4 | 6,4 | 5,5 | 1 |
| EW-6 | 307 | 16,3 | 7,0 | 5,5 | 2 |
| EW-7 | 308 | 12,9 | 12,4 | 5,5 | 2 |
| EW-8 | 309 | 15,8 | 12,4 | 5,5 | 2 |
| EW-10 | 310 | 18,9 | 12,4 | 5,5 | 2 |

EW-V1-8

V1 is the first series. The construction consists of standard columns and joints between them. Different obstacles are fastened to joints and platforms. More columns are, more ride surface is and more obstacles are. According to client's preferences it's possible to manufacture a ride with one or two stairs.

It's possible to manufacture any ride with a kid level not far from the ground where parents may accompany them. And children wear a complete fall arrest system!

EW-V1-4

EW-V1-5

EW-V1-6

EW-V1-7

This ride can be a centre of any amusement park or a particular entity at any leisure zone. This model of popular rope parks is used for installment at a place with no natural stall or that are out of service.

Our production line has two different models of these parks. EW-V1 is the model with a full structure and a hexagonal surface. There can be any number of stalls the only limit is the angle between them should be no less 60 degrees. This model can have a kid level at a height of about 0.8 meters, a basic level at a height of 3 meters and a high level of 6 meter high. A cell structure of a model has a limited space that can be used beneath the ride but the usage is not prohibited.

Extreme World is a fascinating amusement both for adults and kids at the same time. No matter a model or a size its main priority is a secure constant arrest fall system. An operator fastens and unfastens it just on the ground.

The main characteristic of this model is that between columns you have TWO obstacles that allow you to make a ride with a double number of obstacles without big alterations to the ground.

It's possible to make a kid level at a 0.8 meter height, a basic level at a 3 meter height and a high level about 6 meter high. Moreover here you can add one more level about 9 meters. Thus the total number of levels can be four.

You may advantageously use the space under the ride. It's possible to install not very high (till 3 m.) rides practically on the whole space. Or we can make the first level at a 6 meter height and collocate practically on an empty space a huge inflatable set Trampolino Park.

V2 is the second version of this ride. Its construction consists of big columns and joints between them.

“EW-V2-111”

“EW-V2-112”

“EW-V2-113”

This series doesn't have standard models everything depends on a ground size and client's preferences. It's possible to install different models with a various number of columns and obstacles that obviously will be reflected at the complex price.

“EW-V2”

The main difference from the first series is that there are two obstacles between each column that lengthens the ride without major alterations to the ground.

“EW-V2”

According to client's preferences it's possible to create a certain route from which no one can leave or create two different types of routes an easy and a difficult ones. Or we may leave the visitors on their own and they can choose either way. Everything is possible. You can stop at columns, turn either direction, switch to another obstacle or return back. The main condition is that nobody should go the opposing direction the same way.

If the building is rather high it's possible to make a ride with two levels for adults. It's really breathtaking going on a 6 meter high thin rope or swinging on a hanging bridge.

This is a ride the obstacles of which are fixed in a closed chain that is located at about 3 meters. All the obstacles are of different levels of difficulty that's why this attraction is available for people with different levels of preparation and physical abilities. And the things that were confusing at the beginning at the end of the route they are advantageous and bring a lot of new emotions. This is all about a rope park Extreme World.

This is a new ride that has recently appeared at the RIF production line. Each element of the arrest fall system was thoroughly worked out. The construction and the arrest fall system practically exclude the human factor both from staff's and visitors' sides. The arrest fall system is a completely closed system and only an operator on a ground can unfasten it.

This ride is a perfect model for a shopping center or a park. Both kids and adults will be happy staying at such a mini park. This ride is an ideal place for a family to spend time together or a good ground to organize company activities.

Everyone who decided to try this ride will feel as if he were an alpinist or simply a very handy person.

"Shoot Fun" park attractions

For more information, please, visit our site 

Shoot Fun is a unique family ride where adults as well as kids may have a great time. The basis for the ride is an air cannon that shoots with small soft balls that are absolutely safe for a rival.

| "Funny Shot" | | | |
|--------------|-----------|----------|-----------|
| Model | Length, m | Width, m | Height, m |
| "SF-4" | 8,0 | 4,0+0,8 | 3,6 |
| "SF-6" | 8,0 | 4,7+0,8 | 3,6 |
| "SF-8" | 8,0 | 6,0+0,8 | 3,6 |

A unique complex Shoot Fun consists of a playing pavilion with an illumination system, two powerful air compressors, several air cannons, a set of small soft colourful balls and a smart managing and control system.

A smart managing and control system of the ride Shoot Fun provides an operation of the whole set. The system controls all the staff's actions from switching it on to controlling the game time on each air cannon.

One person is needed to maintain a Shoot Fun that significantly reduces exploitation expenses.

There is no need to buy something else. The only thing you have to do is to supply 220V electricity. Power consumption is from 2.2 till 8.8 kW/h.

A Shoot Fun set work around-the-clock.

| A fight set "Borodino" | | | |
|------------------------|-----------|----------|-----------|
| Model | Length, m | Width, m | Height, m |
| M4 | 8,0 | 3,0 | 2,85 |
| M6 | 8,0 | 4,0 | 2,85 |

Our clients also may program the length of a game or get data about how many times a cannon's been switched on for the last game period. A not authorized access into a smart system is impossible, on switching it off the set will not work.

A fight set Borodino is another model of the popular Funny Shot ride for indoor usage. It's possible to deliver it both with a control system or without.

A fight set "Borodino"

A six meter high column made of colourful tubes with a multilevel `spider web` may receive a lot of little rascals and entertain them for a long time. It's not so easy as it seems to climb up and then go down. A colourful web doesn't release its victim so easy and fast.

A ride Spider Man with a slide is the combination of two popular rides in one! There is no need to waste you money buying a climbing platform for a slide! The top launch platform is about 3.5m.

| "Spider Man" | | | | |
|--------------|------|-----------|----------|-----------|
| Model | Code | Length, m | Width, m | Height, m |
| M5 | 325 | 5,0 | 3,0 | 6,5 |
| M4 | 326 | 4,0 | 2,6 | 6,5 |

Important! There is a height limit from 0.7m to 1.6 m.
Important! It's necessary to fix it to the ground with rigging wires.

"Fantastic Jump" park attractions

"Gummy Jump"

For indoors

| "Gummy Jump" | | | | |
|-----------------------|------|-----------|----------|-----------|
| Model | Code | Length, m | Width, m | Height, m |
| GJ - 2 (For outdoors) | 351 | 9,85 | 5,64 | 4,15 |
| GJ - 2 (For indoors) | 352 | 9,85 | 5,64 | 3,15 |

A model range of a Jump sport trampoline has a new unique model. Gummy Jump is a trampoline and an amusement. The first zone Trampoline features two trampolines to practice high jumps or jumps to different directions. The second zone is Leisure area that has a pool with different colourful soft balls. Just the strongest, the handiest and the most courageous can get out of there. Those who don't believe we invite to test it!

"Gummy Jump"

For outdoors

"Gummy Jump 3"

"Gummy Jump 3"

One will get incredible emotions from jumps into a pool with soft balls and from a complete immersion there.

The main advantages are a colourful design and a high-tech system of income control. And as usual our company principal priority is to manufacture safe rides and guarantee a long-term exploitation.

This amusement is for an active leisure time and both for kids and adults without any age restrictions. It's construction allows to use it indoors and outdoors even with 0°C temperature (with lower temperatures it's necessary to warm compressors).

This amusement has three designs Treasure Island, Jurassic Park and Russian tales.

An air canon shoots with tennis balls at a rotating automatically coming back targets. Apart from this there are four fixed targets with an electronic counting system of hits. Thus you may organize a bonus game. An authentic hardware and programme support guarantees a 100% income control. It also allows organizing three level bonus games.

Aquadrom park attractions

For more information, please, visit our site 

It is an interesting and secure ride with which you can literally walk on water surface. It's a pool (assembled or inflatable) and several inflatable Spheres, Tubes and Rollers. Last season experience showed a high demand for this ride.

One-layer Sphere is the simplest product for this water ride. It allows visitors to contact with water practically directly because lay flat width is 1 mm.

It's a water attraction Tube. It also provides a direct contact with water. As the form is different thus there is room even for two kids.

Roller is a water amusement attraction by RIF®. This is an inflatable cylinder that is difficult to overturn and fill with water. That means it's an ideal solution for renting in a park. Besides this form is easier to walk or run in and thus it's more interesting. It has room for two kids.

The construction characteristic is the use of a high-quality leak-proof zipper TIZIP (Germany). While using it's obligatory to inflate and blow off Sphere and Tube attractions.

An assembled pool for an aquadrom

An inflatable pool for an aquadrom

The best option to make a water attraction Aquadrom is to use Spheres, Tubes and Rollers in a pool. You don't depend on the weather changes and expand your working season. For this type of amusements we offer two different types of pools an inflatable and an assembled one.

| "Aquadrom" | | | | |
|------------|------|-------------|-----------|---------------------|
| Model | Code | Diameter, m | Length, m | The number of seats |
| "Roller" | 360 | 2,1 | 2,1 | 2 |
| "Sphere" | 362 | 2,0 | 2,0 | 1 |
| "Tube" | 363 | 1,9 | 2,1 | 2 |

It's possible to use these attractions in a pool along with electric boats (bumper boats). Thus you'll increase the profit of you rent because you use one pool, the same staff but two different rides.

Dock for an aquadrom

"Slow River"

| "Slow River" | | | | |
|--------------|------|-------------------------|--------------------------------|----------------|
| Model | Code | Length of the course, m | Occupied space, m ² | Ground size, m |
| Plan 1 | 371 | 21,6 | 59,3 | 7,7 x 7,7 |
| Plan 2 | 372 | 55,2 | 200,8 | 9,7 x 20,7 |
| Plan 3 | 373 | 59,2 | 242,9 | 13,8 x 17,6 |
| Plan 4 | 374 | 55,2 | 340 | 20,0 x 17,0 |
| Plan 5 | 375 | 37,6 | 120,9 | 15,7 x 7,7 |

An amusement Slow River is for the littlest visitors of a park. It's a unit of plastic frames that are assembled in a way of water course where water transports any number of boats. You can make the water move with a help of an electric pump. Pool walls are decorated with posters.

A unit of boats for attraction Slow River.

You will have an extraordinary merry-go-round. Water is its moving power and its movement pattern depends on your imagination.

A Lighthouse decoration is an additional supply unit. It makes a ride noticeable at night because it gleams and blinks.

"Slow River"

"Slow River"

"Volcano"

An amusement Volcano is a good combination of a soft bouncy castle, difficult climbing wall and a fiber-glass slide. All these elements are a formula for success.

| "Volcano" | | | | | |
|---------------|------|-----------|----------|-----------|--------------------|
| Model | Code | Length, m | Width, m | Height, m | Platform height, m |

Track for bumper cars

It's not always possible and secure to use electric battery cars without a special surface. In many cases a free drive of cars on sidewalks and squares is prohibited.

There is a solution. Specially designed and assembled grounds don't need any concrete basis or a fixation to the ground. And It is more interesting for kids to ride on such a surface than on an asphalt one.

Track for electric cars

Nowadays playing rooms are the most popular and interesting amusement for kids of all ages. A professionally equipped by RIF® company playing rooms Carapuz allow parents to do shopping or spend time with their friends while their children are entertained and secured.

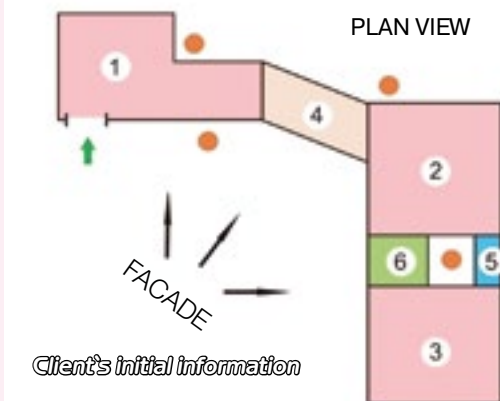

The main priorities RIF® production are security and high quality. Our playing rooms fully meet the worldwide requirements. They are manufactured according to different psychological and physical abilities of kids from different age groups: one is for 3-6 year kids and another one starts from 5 year old children. There are no age restrictions just height restrictions (no more than 1.4m.). The level height, passage and obstacles width, their rotation is designed in that way that an adult can get to any point of a room. Playing rooms come through operational control of quality at all production stages and a fit-up

assembly test. Carapuz playing room frame is made from a shaped tube with a double bolted joint and is supplied with an installed soft protecting PVC cloth that significantly reduce the time of assembling.

A full equipment of the playing room includes slides, pools with balls, bridges, swing, whirligig, labyrinth, obstacles and unique colour solutions. Vivid colours and an interesting design make a journey in this room cheerful, interesting, fascinating and unforgettable!

Our designers will work out a playing room that will be an eye-catching object in your shopping center or a park

space. To make your choice easier we've created several standard models that are available in any design form. Any standard model is at maximum equipped with playing elements. If you haven't found among the diversity of models what you're looking for we'll be happy to offer you several exclusive projects.

- module 1,2,3 – height 3.8m
- module 5 (passage) – height 1.5 m
- module 6 (passage)- height 2.3m
- module 4 (rope bridge)- height 1m., distance from the ground is 2.8m
- tree

A playing room of 2303 project is an exclusive model of a playing room for its usage in a set leisure zone. Three different zones are its peculiarity. On assembling this model no trees have been cut down.

Our offer

2303 project

Design "Castle"

Characteristics: yellow, red and grey are predominant colours. A medieval castle is a themed decoration.

Exclusive playing rooms

An extraordinary playing room Spider Man is the core element in a seashore park.

Three levels attract a lot of little rascals where each of them will find something particular for himself.

Grippe Spider Man webs are the main element of a playing room. This multilevel obstacle looks like a real spider web. A plastic slide that connects the low level with the high one is also an interesting element. Above a big pool with balls there are two hanging bridges. One of them is in the form of a long pipe while another one is a monkey bridge. And a wide slide leads to a pool.

This part of the catalogue is about individual playing room projects. They can be big or small without any size or design restrictions. Your imagination will tell us what elements to fill a room with.

2812 project

2812 project

The main characteristic of this project are two similar castles that are connected by bridges. As these castles are in the property of different knights each of them has its own colour.

The first level square is $54+54 \text{ m}^2$
 The second level square is $54+54 \text{ m}^2$
 The third level square is $94+94 \text{ m}^2$!
 Thus around 400 m^2 of different games and entertainments.

2812 project

2402 project

The combination of a Spider Man ride and a playing room is a characteristic of project 2402. Spider Man is its themed decoration.

Three not high levels (2.8 high) are the main feature of a 2006 project.

2410 project

2006 project

Project 2410 is a combination of a Spider Man ride and a playing room for outdoor installment.

Series Shattl is the first series of our inflatable boats that is highly demanded nowadays too. Your beach doesn't have an electricity supply, you are not ready for fixed constructions or you're always moving searching for a profitable place. Thus oversized mobile inflatable slides of the Shuttle series are what you need. They are highly demanded because of low cost and transportability. Just drop an anchor close to a shore and you have a renting point.

Shattl -D is a double racing slide to increment your benefit.

Series of inflatable wet slides Shuttle with TS index is supplied with a pool but it can be easily used in an open sea.

Attention: length means the length of a racing slide while height means the height of a top launch platform.

A wet slide Shuttle has a new racing slide and a new design. Now it's funnier to go down this slide with a big company.

Manhattan series presents fast and straight inflatable slides as Manhattan streets. It is easy to start it operate because slides aren't of a huge size and they are easy to storage.

"Manhattan"

| M11 | 631 | 11,0 | 1,8 | 4,0 |
| M7 | 632 | 7,0 | 1,7 | 2,5 |

Atlantida series is an inflatable slide with an open racing slide. An inflatable pool is the main advantage of this mode. The landing from this slide finishes at a shallow pool thus parents may not worry. However its enormous size will draw children's attention. It's an ideal model for parents with little children.

"Atlantida"

M20S

Inflatable slides from Concord series are characterized by a safe construction and a modern design time proved.

"Concord"

M15

Attention: length means the length of a racing slide while height means the height of a top launch platform.

"Amazonka"

Inflatable slide series Dragon, Amazonka and Kamikadze might be produced along with a pool. These models have an S index. You may keep working calmly even with a rough sea.

"Dragon"

M20S

Inflatable slides from Concord, Dragon and Atlantida series are produced with a rigid basis thus a racer barely contacts with racing slide surface that makes a descent faster. Harakiri, Kamikadze and Amazonka have simpler basis but a speedy descent is guaranteed by an angle of the racing slide.

"Amazonka" series

| Model | code | Length, m | Width, m | Height, m |
|-------|------|-----------|----------|-----------|
| M8 | 685 | 14,5 | 2,0 | 8,0 |
| M8S | 686 | 14,5+6,2 | 2,0 | 8,0 |
| M7 | 687 | 13,1 | 2,0 | 7,0 |
| M7S | 688 | 13,1+5,7 | 2,0 | 7,0 |
| M6 | 689 | 11,7 | 2,0 | 8,0 |
| M6S | 690 | 11,7+5,2 | 2,0 | 8,0 |

If a speedy descent is not enough and you need more emotions test inflatable slides from a Dragon series. They seem to be simple but once you descend you'll be full with unforgettable emotions that you'll want to feel one more time.

"Dragon" series

| Model | code | Length, m | Width, m | Height, m |
|-------|------|-----------|----------|-----------|
| M15 | 635 | 15,0 | 2,1 | 5,0 |
| M20S | 637 | 15,0+5,0 | 2,1 | 5,0 |
| M11 | 636 | 11,0 | 2,1 | 3,8 |
| M15S | 638 | 11,0+4,0 | 2,1 | 3,8 |

"Amazonka"

Amazonka series is a 2013 model. It's a combination of popular rides such as Kamikadze and Dragon. Its main advantage is a simple construction that gives you strong emotions. As many other models this one might be manufactured along with a pool.

"Dragon"

M15

Attention: length means the length of a racing slide while height means the height of a top launch platform.

Harakiri and Kamikadze are inflatable slide series with a steeply falling racing slide. These are the most adventurous slides by RIF®. A free fall feelings get adrenaline flowing.

Inflatable slides from Harakiri and Kamikadze series are for those who need a surge of adrenaline. You'll feel a real kamikadze standing on a 6 or even 8 meter high top launch platform but it's just for the first time. No matter how extreme they are their security is guaranteed by soft racing slide and inflatable balloons.

| "Harakiri" series | | | | |
|-------------------|------|-----------|----------|-----------|
| Model | code | Length, m | Width, m | Height, m |
| M8 | 660 | 12,8 | 2,0 | 8,0 |
| M8S | 661 | 12,8+6,2 | 2,0 | 8,0 |
| M6 | 662 | 10,5 | 2,0 | 6,0 |
| M6S | 663 | 10,5+5,2 | 2,0 | 6,0 |

These slides models with an S index are produced to install at seashore. Thus you don't depend on any weather changes.

"Kamikadze"

M6

This inflatable pool can be used with different slides to secure a sustainable operation.

"Pool for a slide"

M8

"Harakiri"

| "Kamikadze" series | | | | |
|--------------------|------|-----------|----------|-----------|
| Model | code | Length, m | Width, m | Height, m |

| M7 SL | 681 | 25,5 | 9,4 | 10,0 | 7,0 |

M6SL

No other Ukrainian manufacturer has an inflatable Tsunami slide. A speedy descent from a 6 meter top launch platform finishes at a flat smooth surface. Its construction doesn't need a metal frame and a pool. Everything is in the supply unit! Inflate it, fix it and start working!

Attention! This slide is delivered with a ventilator. This model is not a leak-proof product.

"Megaslide"

We can offer a water slide of any length and take into account the peculiarities of the terrain.

"Megaslide"

Incredible sensations with a long descent with great speed!

This three-headed snake is for real lovers of sea trips in a big company. It's possible to produced it only with 24 seats because of construction peculiarities.

Inflatable water ride Virazh is a towed water ride the construction peculiarity of which is a double layer bottom. This form provides an easier planing of a sled thus you can use a boat with less motor power. Its advantage is a less stable position at a planing because of less contact surface with water thus any pilot's or racers' mistake may overturn the sled. Moreover a double layer bottom construction experiences a huge pressure. Thus this series of rides has a limited guarantee.

| Model | code | Length, m | Width, m | Height, m |
| "Rodeo" | 816 | 1,3 | 1,2 | 0,4 |

"Rodeo"

Rodeo is a single-seated towed ride. A racer standing on his knees may change the center of gravity to get new emotions.

"Bullet"

| "Bullet" | | | | |
|----------|------|-----------|----------|-----------|
| Model | code | Length, m | Width, m | Height, m |
| "Bullet" | 817 | 2,1 | 1,4 | 1,4 |

Bullet is a ride for real adventure-seekers. If the motor power is enough apart from planning rotation is guaranteed.

"Manta"

| "Manta" | | | | |
|---------|------|-----------|----------|-----------|
| Model | code | Length, m | Width, m | Height, m |
| "Manta" | 830 | 2,7 | 4,8 | 0,6 |

New extreme (very extreme) ride Manta.

"Manta"

Batman is the most extreme ride from RIF® family. It has the most interesting design. It promises a huge surge of adrenaline. It's just for adventure-seekers! Its construction under certain circumstances allows flying.

Record "Batman"
21 place!

| "Batman" series | | | | |
|-----------------|------|-----------|----------|-----------|
| Model | code | Length, m | Width, m | Height, m |
| B2 | 820 | 3,4 | 4,3 | 0,85 |
| B3 | 821 | 3,4 | 5,5 | 0,85 |

Two types of the ride are available:
2-6 seated or 3-9 seated one.

"Batman" 2

"Batman" 3

Batman 2-6 is a six-seated double rowed ride. With its full capacity it can be used as a regular Double-Banana sled and thus it's impossible to turn it over. And with its minimum capacity a Batman wing with no problem will lift its passengers above the water surface.

"Batman" 3

Batman 3-9 is nine-seated triple rowed ride. With its maximum capacity it can be used as a regular Double-Banana. Index '3' shows a maximum passengers number to fly.

"Batman" 2

Attention! It's obligatory to use Profi life-jackets on these rides.

To use Profi life-jackets on all rides is an obligatory requirement. Don't save on security! RIF life-jackets meet with all European norms on these products.

Life-jacket

Materials that are used in Profi life-jacket productions are sun and rot proof. Thus your purchase is a long-term and secure investment into security.

Children life-jacket

An inflatable complex Titan is an interesting inflatable island lost in the sea. Even during heatwave it will attract children who like jump, climb and get fun at the same time. Moreover you can use it as a base far away in the sea during Banana sea trips.

An Island set can be a real island along with Banana ride lost in the sea. Its main advantage is a wet slide. You can choose between two different island and slide sizes.

Neptun complex with a pool is a good choice for seashore ground where there are a lot of small children. Warm water in the pool and a soft slide make children be happy and parents not worried.

"Water polo"

Water polo is an amusement for an active leisure time. Now this game is more interesting and fascinating.

| Products for leisure time | | | | |
|---------------------------|------|-----------|----------|-----------|
| Model | code | Length, m | Width, m | Height, m |
| "Water polo" | 1005 | 16,5 | 10,0 | 1,3 |
| "Aqua volleyball" | 1006 | 10,0 | 5,0 | 1,6 |
| "Titan" | 1008 | 9,0 | 8,0 | 1,5 |
| "Island" 4x4 | 1010 | 10,5 | 5,0 | 2,7 |
| "Island" 5x5 | 1011 | 12,5 | 6,0 | 4,0 |
| "Neptun" | 1041 | 8,45 | 5,63 | 3,57 |

Slippery football. A very slippery and soft field provides new and unforgettable emotions.

"Pyramid"

"Pyramid"

A water catapult or a blob is a new ride in the entertainment industry. This ride allows you to emerge into water differently.

"Blob"

"Aqua volleyball"

Aqua volleyball is a new ride for an active leisure time. It takes you several minutes to install a colourful inflatable surface at shallow water and start the championship.

"Inflatable buoy"

You may organize competition on a beautiful jump or on the highest jump. A very funny water ride that will draw attention of many passers-by. Blob attracts a lot of people because it's a very fascinating performance.

| Blob | | | | |
|------------|------|-----------|----------|-----------|
| Model | code | Length, m | Width, m | Height, m |
| B5 | 1034 | 5,0 | 2,0 | 1,0 |
| B7 | 1035 | 7,0 | 2,0 | 1,0 |
| B10 | 1036 | 10,0 | 2,0 | 1,0 |
| B12 | 1037 | 12,0 | 2,0 | 1,0 |

Blobbing is the funniest attraction both for adults and children. It's easy to use and doesn't require any special technical service.

Double-boarded inflatable pool

"Inflatable pool"

You are the owner of a skating rink who wants to increment its benefits? Thus you need our assistants for young figure-skaters. Those who do not stand confidently on ice will be happy to have these assistants.

| Model | code | Length, m | Width, m | Height, m | Height of handles, m |
|------------|------|-----------|----------|-----------|----------------------|
| "Penguin" | 1115 | 0,52 | 0,45 | 0,8 | 0,58 |
| "Bear" | 1120 | 0,55 | 0,5 | 1,05 | 0,92 |
| "Sea bear" | 1121 | 0,9 | 0,4 | 0,76 | 0,76 |
| "Squirrel" | 1122 | 0,6 | 0,4 | 0,87 | 0,8 |

You have four different models to choose: a serious and strict Penguin, Funny and cheerful Bear, serious and respectable Sea bear and a new model a beautiful Squirrel.

If you think that just children need these assistants you're mistaken.

Funny family waits you

With their help young figure-skaters will stand more confidently and will keep their balance better. Using an additional supporter they will faster get necessary figure-skating skills. And they will be very eager to visit your skating rink again and again.

Inflatable set produced by RIF® company may be used in winter time too due to a unique glue technology.

Towed rides can be used during winter time too! Any model can be produced both for winter and summer exploitation.

Shoe covers are used during winter time.

Inflatable RIF® sleds are produced of high quality PVC material that is resistant and sustainable to freezing temperatures (till -40°C). Inflatable sleds can easily glide on an ice or snowed surface as well as on water surface serving as a small mat for swimming. You can swim with it holding handles and pushing yourself with legs. The usage of inflatable sleds in comparison to sleds with a rigid frame reduces the risk to get hurt on falling off or bumping into. RIF® sleds are very easy to ride just bend your body and you'll change the direction of the sleds.

The model features a very strong towing knot that is sustainable to a tow by a snowmobile.

Trailer 1
